Assignment 1

Test.py

We created test.py file where we added 3 test cases:

- Test_edit_distance() for empty lists
- Test_read_entire_file() for checking if a file does not exist
- Diff_subcommand() for checking difference between two files

GitHub Workflow:

Following steps were added in the GitHub workflow file:

- Checkout repository
- Setup Python
- Install dependencies:
    - Pip
    - Pipreqs
    - Pylint
    - Black
- Run Pylint
- Run black
- Run test cases
- Merge to master branch (pull request)
